EASY OIL CHANGE WITH PLASTIC OIL DRAIN PLUGS

During an engine oil change oil drain plugs are often removed from the oil pan and screwed back in. During this process the oil drain plug can deform or fracture, creating a leakage risk. Oil drain plug 49379148 is made of plastic, implemented by car manufacturers, to avoid multiple usage. With every oil change oil drain plug 49379148 needs to be replaced.

Don't take a risk – Choose Corteco original quality.
