

Bolt kits for pulleys

SIMPLE AND SAFE

Pulleys should be checked every 90,000 km and replaced together with the bolts and belt. Replacement bolts are difficult to identify. CORTECO offers you the widest selection in original quality from Freudenberg, the world's leading manufacturer of vibration technology products. Purposely designed original pulleys and bolts guarantee straightforward assembly and the highest degree of safety. CORTECO's portfolio comprises of more than 200 pulleys.

New bolts are a must!

CORTECO recommends replacing the bolts with the pulley. Reason: In serial production torque-to-yield (TTY) bolts are often used which are tightened by automatic bolt tightening devices to just above their elasticity range. The bolt undergoes lasting deformation and/or stretching. Re-using such bolts poses considerable safety risks and is not recommended. As a result of the deformation, the usual ratio between torque and preload cannot be achieved. Result: the screws can become loose or even break.

Replacement made easy!

CORTECO now offers 32 matching bolt kits for more than 300 vehicle models from 15 manufacturers.

CORTECO bolt kits – your benefits:

- All necessary bolts and washers in one kit
- Time-saving through easy sourcing of the correct bolt kit
- Simple assembly and increased safety
- Compliance with OE requirements
