ENGINE OIL CHANGE SAFE AND SIMPLE

Oil drain plugs allow an easy oil change. Every few thousand kilometers they are removed from the oil pan and screwed back in, during this process the oil drain plug can deform or fracture. Creating a leakage risk. With oil drain plug 49379181 this is not the case. The new plastic material, implemented by car manufacturers, is not suitable for multiple extraction. With every oil change oil drain plug 49379181 needs to be replaced. This limits the risk of oil leakages.

Don't take a risk – Choose Corteco original quality.

Oil Drain Plug 49379181

Material: plastic
