## RANGE ADAPTATION

# SEAL 82011331 REPLACED BY 82000519

Starting from now on seal 82011331 - B1 with metal outer diameter - will be replaced by seal 82000519 - BA with rubber outer diameter. This change provides better sealing action due to the external rubber, whilst accommodating all the functions of the original radial shaft seals, as compound and dimensions will remain the same.

**Don't take a risk – Choose Corteco original quality.**
